

STATE EGGS FOR STRIKE BREAKERS

Request Made of Vermont's Governor for Protection of Property and Employees

SECOND DAY OF GRAND TRUNK STRIKE

Tie-Up of Freight Traffic Remains Almost Complete—Mills Close on Account of Stock Scarcity—Resumption of Passenger Schedules on Almost Every Line—Freight Situation at Toronto is Serious Indeed.

Boston, July 20.—One slight outbreak by strike sympathizers at Island Pond, Vt., the closing of a mill at Monson, Mass., because of lack of supplies, and the resumption of the complete passenger schedules on almost every line marked the second day of the strike on the Grand Trunk and Central Vermont railroad systems in New England today.

A Few Freight Cars Moved.
A few freight cars were moved at isolated points and one train of twenty cars bound from Montreal to Portland passed Island Pond tonight, but with this exception the tie-up of the freight traffic seemed as complete as it was yesterday.

Woolen Mills Closed.
The closing of the mill at Monson was the direct result of the freight tie-up, the Somerset Woolen company being unable to secure sufficient stock to continue operations and shutting down at noon for the remainder of the week. If conditions continue as at present other mills at different points will be obliged to follow the example of the Somerset.

Missiles Thrown at Strikebreakers.
The trouble at Island Pond, Vt., which broke out last night and continued this morning, was the cause of some discomfort to the railroad officials and as soon as news of it reached the request was made of Governor Proctor for protection for the railroad property and employees against strikebreakers. Investigation showed that a crowd of young people, most of whom were relatives or friends of the strikers, who make up the larger part of the population of the town, had thrown lumps of coal, decaying apples and other missiles at a trainload of strikebreakers, had broken car windows and done other damage. The strikers themselves disclaimed all knowledge of the trouble and declared that they were as anxious as the railroad officials that peace be maintained. One arrest was made.

PERISHABLE FREIGHT RUINED.
Situation at Toronto Serious—Yards Congested With Cars.

Toronto, Ont., July 20.—The second day of the strike on the Grand Trunk has been under a heavy fog and rain. Through passenger trains are running fairly on time. A few locals have been run, but no attempt is being made to move freight.

No Meat Nor Milk Famine.
The freight situation in this city is indeed serious. The yards and sidings are congested with cars. The ice creameries are running on a very limited supply of milk. But there is no milk famine and no meat famine. A full supply of milk was received yesterday and an hour later the morning milk and cattle are being shipped in over the lines of the Canadian Pacific railroad.

The only important train abandoned today was the Cobalt special.
Special Men Man Trains.
The trains that go out were manned by special men and the terminal was crowded.

NO CLUE TO WHEREABOUTS OF DR. HAWLEY CRIPPEN

Scotland Yard Authorities Offer Reward for His Apprehension.

London, July 20.—Scotland Yard officials have no official confirmation tonight of the story coming from Venice last night, that a man, whom the French police suspected of being Dr. Hawley Crippen, had been seen in London. The doctor, who was wanted in London in connection with the disappearance of his actress wife, Belle Elmore, registered at a hotel in the French town under the name of Dr. James H. Ross. He was seen last Sunday, and, on the appearance of a gendarme, hastily fled in the direction of the Spanish frontier. Still, while the London police who have been searching diligently for Crippen and his accomplice, Ethel Clara Leneve, since the two fled from the Crippen home at Hill Drop Crescent, July 8, have not been able to establish that the doctor escaped into Spain, they confess to being as much in the dark with regard to his whereabouts as ever.

Late this evening the Scotland Yard authorities issued an order for the arrest of descriptive pamphlets in English and French offering a reward for the apprehension of the American dentist.

ALL QUIET AT NEW LONDON.
Two Steamboats of the Company Did Not Run Last Night.

New London, Conn., July 20.—Everything is quiet in the strike situation today. Three trains were sent out over the Central Vermont and two came in. Of the incoming trains one was 25 minutes late, while the steamship which had been scheduled to leave at 10 o'clock, did not leave at all. The striking conductors and train men held an open meeting tonight, which was attended by the strikers. The strikers decided to hold out until they get their demands met. The strikers are demanding a 10 percent increase in wages and a 40-hour week.
